-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The amendment received 8/23/05 has been entered. Claims 4-20 have been added.

2. Claims 18 and 20 are objected to because of the following informalities: they lack a period to end the claims. Appropriate correction is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1,2,3 are rejected under 35 U.S.C. 102(e) as being anticipated by Suzuki 6,612,488.

Suzuki discloses in column 6 lines 38-58, a store terminal holding certain information credit card information of a specific credit card, including card number, card holder name, expiration date (i.e. identification information). It is disclosed that a terminal where the card is presented by the card holder sends card information for the credit card through a network to a host computer for authorization of use of the credit card (i.e. querying a remote database for authorization). The host computer stores information regarding the credit card at the member store information (i.e. remote database and

membership information). It is disclosed that the host computer database stores card history (i.e. customer purchase history is inherently transmitted from remote terminal to host computer). The examiner interprets authorization by the host computer to be granting card holder access to the remote terminal. It is noted that this authorization is not a prepayment.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 4-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suzuki 6,612,488 in view of Terranova 6,422,464. Suzuki discloses that which is seen above. Suzuki does not disclose the fuel pump or fuel pump card as in claims 4-20. Terranova discloses a fuel pump system that accepts a credit card. It would have been obvious to a person of ordinary skill in the art at the time of the invention to use the remote card authorization system and method of Suzuki in conjunction with the fuel pump of Terranova. This would effectively allow for only authorized transactions at the pump of Terranova, minimizing loss of revenue due to "drive offs".

7. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.
